

Plot no. 437, Balaji Ext. Bhagwanpur, Varanasi - 221005

### Corona virus (Covid-19):

First of all, if we start talking, then we start talking about Corona that the way in which Corona had created a fear in the whole world. The coronavirus caused fear in people this way. As if to believe that human does not recognize human of human but it was not that everything gradually became ordinary. Government and non-governmental organizations grew up to participate in Corona's crisis and determined that no person would be allowed to die without eating.

Sewa Sangam Society also took part in this so that the people of Nagwa would not face any kind of problems and could provide initial things and be told about Coronavirus, and talked about his symptoms. Luckily there was no Corona case found in the Basti. A man was suspected but his report came negative.

We provided edible food (*Yellow Daal, Mustered oil, Salt, Onion, Potato, Spices, Turmeric, etc*) to the people of Nagwa with help of BF. SSS provided to 127 families for 12 days then after to 132 families for 24 days. It was really critical situation for these people because everything was shut off. Many thanks to all the donors, private people and societies, Caritas Boxmeer , SOB Boxmeer who supported st. Benaresfonds.

As we know, that Nagwa's people are already labors, Rickshaw puller, Trolley puller, and mad servants, etc. These people have to face many problems than others.

At this moment, Sewa Sangam has been providing edible food to 25 families continuously from June 2020 till now and will be providing for the next 3 months. These 25 families have a more critical situation even lockdown is over because most of these families have no job

even some family has then not enough income. Most of the families' guardians are widows and old family or jobless even have jobs but not enough income to survive their family.

### **Clinic and Medical care:**

Mrs. Surekha, Asst. the nurse is checking to a patient with a thermal scanner than doctors prescribe the medicine from the clinic. People from Nagwa come regularly to the clinic with their problems even they have to take medicine or general talk with asst. nurse or any staff of Sewa Sangam.

*Nurs asst. mrs. Surekha*

SSS pays attention to these people and aware from time to time by telling them about Covid-19 that you could keep safe yourself and to your family. In order to provide medicine to the needy people at beginning of Corona than the staff of Seva Sangam Society visited their houses and provided medicines to the needy people.

### ***BF members visited last year at S. and F.'s houses.***

F. was suffering from cancer disease and S. has felt down and operated on her leg and waist but both couldn't survive for a long time and died this year.

### **Emergency Cases:**

Mr. R. was a suspected patient for Corona but after the investigation report got negative. He is 45 years old, his profession is labor work.

He has been suffering from Liver Abscess disease for the last few months. SSS is taking care of his treatment of his liver abscess now. The white pus from the wound has been taken out in the hospital. He is continuing with medicine as per doctor advised. He has to take medicine for the next 5 to 6 months. He is much better now than before.

### Garden:

Garden members have been harvested Garlic and Onion. Harvesting of onion an average of 50 to 70 kilos and 5 to 30 kilos of garlic an average from each plot.

Members are very keen to take advantage of each season therefore they are regular farming in their plot. As well as it helps a lot to them. Now, they will begin new crops onto the plot because the new season has been started. As we know, our members consider growing potatoes, Onion and garlic as well as some Indian vegetables.

### TBC project:

Sewa Sangam is taking care of Miss. **G. B. and R.K.** who has been suffering from tuberculosis. **R.K.** has completed her medicine taking but **G.B.** is still taking for the next few months. It is a good achievement for R.K. who fought against tuberculosis since last year and she is completely alright now.

Mrs. V's wife

Miss. G. B.

Miss. R K.

Mr. V.'s wife got nutrition powder for her husband (Mr.V). V. has been suffering from tuberculosis for a few months. He had a critical situation during the starting of Covid-19. Sewa Sangam helped him to provide nutritious food, etc. He is doing fine nowadays.

Since the Corona arose up, no group work can be done but 2 or 3 people are taking in the pathology to checkup. Our main focus to work should be done without any harm (It means to protect from Corona). As we know that Nagwa can be more affected if not pay attention over there.

### **Plastering project:**

Under the plastering project, the last new 37 new plastering and painting project was granted in last year.

So far out of 37 rooms, 33 rooms were plastered and the rest 4 rooms are going on. End of this month plastering work would be done. Due to Corona, the plastering work has been stopped. Things are beginning slowly - slowly. Thank you all donors, esp. the society of Rotary land van Cuijk in the Netherlands, who supported st. Benaresfonds!

**Note:-** All people on the pictures agreed to publish their pictures in this report!
